

LOCAL NEWS.

FRIDAY EVENING, MARCH 13.

BAPTIST SUNDAY SCHOOL CONVENTION.—In the Baptist Sunday School Convention, now in session in Richmond, Rev. E. J. Willis, of Alexandria, on Wednesday last, read a very elaborate report, in which he held that the main object of the schools was to bring the children into the fold of the Church. In their organization, the simpler the machinery the better. The less tiresome to the patience of the pupil, the more generally interesting the exercises would be. The greatest point to be gained was to find persons possessed of the proper qualifications for teachers and superintendents. He then gave a scheme for the full organization of a school, the officers and teachers, books, maps, charts, necessary studies, number of pupils in a class, &c., and, to use his own language, gave his machine "a turn" to show how it would work, in doing which he went through with the method of opening, conducting, and closing a school modeled after his plan.

RIVER NEWS.—The Wawaset, of the Cone River line, left here this morning on her second trip since the reopening of navigation, with a full freight and a large complement of passengers. She stops at all the Potomac landings. The steamer Express, of the Baltimore line, will leave here to-morrow morning on her return trip to the monumental city. She also makes landings at all the stopping points on the river.

The Cynthia, of the Farmington line, is now running regularly, and daily brings to this city large quantities of grain and tobacco, as well as many passengers. This line affords great convenience to the Piscataway neighborhood, and to all the region lying round about there, and is, it is stated, making considerably more than expenses.

PERSONAL.—C. Dana Sayre, esq., a native, and for many years a resident of this city, and well-known to all the older citizens as a young gentleman of promising parts, is now practising law in Hays City, Ellis county, Kansas, near the present terminus of the Union Pacific Railroad. Concerning the action of Mr. Sayre, at a late political meeting, held in his western home, the Hays City Advance speaks as follows: "Mr. Sayre being called upon, responded in a regular simple, old-fashioned Democratic speech. Although brief, it held the undivided attention of the audience while he demonstrated the correctness of the principles of Democracy."

HORSE THEFT CASE.—The case of George Gains, the noted horse thief, whose operations were extensively carried on in this locality a year ago, and who was arrested in Georgetown last fall, and turned over to the civil authorities of Loudoun county, was brought into court at Leesburg, Va., last week, and a previous jury having pronounced the man insane, a new jury was empaneled, who declared that he was sane at the time of committing the thefts, but insane now. The counsel for the accused then had the trial postponed. In the meantime Gains was sent to a hospital to regain his reason.

THE ENTRACHT BALL.—The grand charity masquerade ball of the Entracht, to be held at the rooms of the Association, in Washington Hall, on the evening of Wednesday next, the 18th inst., promises to eclipse in its magnificence all the entertainments of a similar character that have preceded it in this city. The arrangements concerning all its particulars have been so elaborate that its entire success is assumed. It will be seen by an advertisement in another column that splendid disguises, to be worn at the ball, are on exhibition at Mr. Orlando Wood's.

BASE BALL.—At a meeting of the Pioneer Base Ball Club, held at their rooms, last night, the following officers were elected for the ensuing year, viz: President, Joseph Hantzman; Vice President, W. H. Smith; Treasurer, J. R. Greenwood; Recording Secretary, Milton Mitchell; Corresponding Secretary, S. Pryor; Sergeant at Arms, Charles Gordon; Captain 1st nine, George Strine; Captain 2d nine, M. Mitchell; Board of Directors, Jos. Hatzman, Charles Gordon, W. Humphries, T. Barnett, and George Strine.

OYSTERS.—The commencement of the fishing season has had a disastrous effect upon the oyster trade—prices having tumbled amazingly within the last week. Excellent oysters are now selling at from fifty to seventy-five cents a bushel; and it is stated that at the wharves of Washington city, sound and good sized oysters are selling at fifteen cents a bushel. Oysters are eaten in this city all the year round, and some of them now here as good as those brought to market last December.

RAILROAD CONNECTION.—The schedule difficulty with the East Tennessee and Georgia railroad, has been adjusted, and the connection between New York and New Orleans, via the Orange, Alexandria and Manassas railroad, is now close and unbroken. The time by this line is quicker by 12 hours than by any other, and will make this line the great thoroughfare of travel between the North and the South.

KITE FLYING.—A horse attached to a carriage, in which a lady was riding, yesterday, on Washington street, became frightened at a kite that was flying in that street, and, running away, would doubtless have inflicted serious injury on some person or thing had his reins not been held by a most accomplished driver. The lady jumped from the carriage and escaped unhurt.

FINE ROCK AND PERCH.—We are indebted to our kind friends at the Potomac Fishing Landings for specimens of the quality of the fishes they are already gathering in the waters of our noble river. Capt. Guy has sent us a rock fish of the largest size, and from Mr. Crawford at Fowke's Landing we have some bunches of white perch not to be excelled.

SOUP HOUSE.—This government charity is still open, and daily affords the means of subsistence to hundreds of the needy colored people of the city. The government supplies the materials for making the soup, but the clerk of the market superintends its preparation.

THE POTOMAC SLATE COMPANY.—The Potomac Slate and Mining Company, of the organization of which a notice appeared in the Gazette some weeks ago, will commence the work of mining about thirty miles down the Potomac river, in a short time. The mines at which operations will begin, have been worked before—many years ago.

MARSHAL OF VIRGINIA.—The Senate yesterday confirmed the nomination of Charles Van Winkle, as U. S. Marshal for Virginia. On the previous day W. A. Duncan was appointed Marshal pro tem. by Chief Justice Chase.

FIRST SHAD OF THE SEASON.—The first shad caught in the Potomac this season was brought to this city yesterday. It was taken in the seine of Mr. Joseph Cawood, who is fishing the shore at Fowke's.

LIQUORS.—Mr. Downham, King street, between Water and Fairfax, has some approved whiskey and excellent rum, which well deserves a notice, because we have received samples; and these being tried by persons competent to judge, are pronounced pure and excellent.

MR. GHEEN. at his stall, in the market, entrance from Royal street, will have some fine beef, and other meats, to-morrow morning.

POLICE REPORT—MAYOR'S OFFICE.—Affairs at the Mayor's office continue remarkably quiet—there being no cases before the court this morning of a criminal character.

MAGISTRATES' OFFICE.—A peace warrant was issued against Edward Gorman, at the instance of his wife, Bridget.

Caleb Cleveland, for having in his possession a horse, stolen from R. R. Reeves, of Prince William county, Va., in the year 1863, was released on giving a forthcoming bond for the horse, and the case was postponed for a further hearing.

Five Dollars Reward.—S. DEALHAM, 108, King street, has lost a very small DOG, about 3 months old—BLACK and TAN TERRIER. The above reward will be given to any person bringing the dog to its owner. 2t

REMARKS.—Flour continues without any material change, the receipts and demand being about equal, and prices have fluctuated but little. In Wheat the transactions have been very limited, but prices the past few days have been firm, and we note sales to-day of prime red at 27½; very inferior at 25½, and 400 bushels fair, in store, at 200; ordinary white at 200. Corn closes less active and prices have a declining tendency. In consequence of the bad condition of roads farmers have been unable to haul to the depots, and the receipts have fallen off considerably, the offerings to-day only reaching about 1800 bushels, which sold at 105, 108, 111 and 112, according to quality. Rye has been in good demand, and prices have been well sustained; last sales at 170 at 172. Oats in fair request, with sales at 74½. Ground Plaster in fair request. Butter in very active demand for good. Lard firm. Eggs in good supply, and prices at the last decline. Dressed Poultry in light receipt and dull. Seed in moderate demand.

BALTIMORE MARKET. March 12.—Flour.—The market has been hardening for some days under a steady, good demand, both for export and home wants, encouraged by light receipts and much reduced stocks of all kinds. High grades of City Mills Shipping Extra are very scarce, millers mostly having sold ahead of deliveries.

Wheat is in light supply, and with a fair demand from millers prices have improved. Corn is coming in quite freely, and still heavier arrivals are looked for on the complete resumption of river navigation, and in anticipation of which, together with the decline in English markets, prices have ruled lower and lower. Sales have chiefly been for Eastern home ports, none going southward. Oats are scarce and steadily maintained. Rye has also sold at advanced prices, but very limited receipts.

BALTIMORE CATTLE MARKET. March 12.—Beef Cattle.—Prices to-day ranged as follows: Old Cows and Sealwags at 44½ to 45; ordinary Steers, Oxen and Cows 47½ to 50; fair to good Stock Cattle 50½ to 55; fair to good Steers 50½ to 55; and the very best Steers 55 to 60. The average price being about \$5 60 per 100 lbs., and an average decline of 8½ to 10¢ per 100 lbs on the rates of last week.

Sheep.—The supply has been light during the past week, and quotations are higher. Prices to-day ranged as follows: fair to good at 50½, and extra 52½ per 100 gross.

The arrivals have been unusually light during the past week, and under a good demand the market has ruled brisk at an advance of fully 50¢ per 100 lbs. Prices to-day ranged as follows: fair to good live Hogs \$12 50 at 100 lbs net.

Gold.

New York, March 13.—Gold to-day 130½.

MARINE LIST.

PORT OF ALEXANDRIA—MARCH 13.

ARRIVED.

Schr. Virginia Dare, Johnson, Baltimore, to Hooe & Wedderburn.

SAILED.

Steamer K. C. Knight, Denty, New York, by H. C. Winslow.

Schr. Elwood Doran, Jarvis, Warham, grain by M. Eldridge & Co.

Schr. Durfee, Huntley, Fall River, grain by W. A. Moore.

OLLS.—Pure Winter Sperm, Lard, Neatsfoot, best Kerosene, Linseed, Boiled Linseed, Lubricating, best Tanners', Castor, Olive, and Sturgeon Oil; also, Spirits of Turpentine, Benzine, Paint Bricks, &c., just received and for sale at lowest rates by

E. S. LEADBEATER & CO., Fairfax street.

BY TELEGRAPH!

[SPECIAL DISPATCHES TO THE GAZETTE.]

IMPEACHMENT.

WASHINGTON, D. C. March 13.—At 12 o'clock to-day the Senate galleries were densely crowded with spectators, and the floor by members of Congress. In the galleries not a black face was to be seen, which noticeable feature caused considerable comment and some indignation on the part of the Radicals. The galleries are almost entirely filled with ladies, but not much fashion or elegance is displayed.—The Senators occupy their accustomed seats, and in the rear are one hundred and fifty chairs for the use of the members of the House.

Messrs. Stanbery, Curtis and Nelson appeared for the President.

At one o'clock, Chief Justice Chase entered the Senate Chamber and took the President's chair, when the Court was declared, by proclamation, to be open, and the journal of the last day's proceedings were read.

During the reading of the Journal the members of the House, headed by the Managers, appeared at the entrance door of the Senate, and after waiting ten minutes walked in, arm in arm. One of the Managers announced the absence of Messrs. Stevens and Butler.

The roll was then called, for the purpose of swearing such Senators as were absent at the last meeting of the Court.

An hour was then spent in routine business.

The Reconstruction Acts.

WASHINGTON, March 13.—In the Supreme Court to-day, a new bill, to test the constitutionality of the Reconstruction acts of Congress, relating to the State of Georgia, was offered, when Mr. Carpenter of Wisconsin, appeared in behalf of Stanton and others, and objected to the bill on the ground that no one was authorized to appear for the State of Georgia, contending that Mr. Jenkins was not the Governor of that State.

The Court took the bill and objection under advisement and will probably render a verdict on Monday.

It may be mentioned in this connection that a decision in the McArdle case, argued last week, will be rendered, on Monday week; and it is the prevailing opinion among the leading lawyers that it will be adverse to the constitutionality of the Reconstruction Acts.—It is generally believed that the Court stands four to five on the opinion, and the decision will be rendered before the act passed by Congress, yesterday, can become a law, or effect its bearing.

New Hampshire Election.

CONCORD, N. H., March 13.—Official returns from two hundred and thirty-three towns give Harriman (Rep.) 59,331, and Sinclair (Dem.) 36,923. Eight towns remain to be heard from, which last year gave Sinclair a majority of 116.

In New York, to-day flour and wheat were dull. Corn steady.

THE TURF, FIELD AND FARM GARDENING, FRUIT AND FLOWERS.

FRENCH'S AGRICULTURAL LIST of the best books published. Fuller on the Grape, \$1.50. Gardening for Profit, Market and Family Garden, by P. Henderson, \$1.50.
